glass

PVC retractable roof pergola

This has an elegant and strong design that you can very comfortably use both in commercial and domestic settings. With the option of mounting either on a “wall”, “building” or on “multiple legs”. An affordable and elegant product, it will serve you for many years.

This model can be manufactured and used in the way of a single module or, by bringing together more than one pergola in the desired directions; it can also be used as a multiplex as well.

Retractable roof bioclimatic system with aluminium or glass blades

Aluminium blades: This is a folding and “Bioclimatic” type pergola. Via a powerful motor and spring mechanism that is integrated into the system, the aluminium panels that make up the ceiling, can move back and forward and enable you to obtain an open, closed or semi-open ceiling structure.

The angles that you will obtain with the ceiling blades gives you the options of protection, ventilation, heat and light control, all at the same time. In addition to this, the polystyrene filled profiles that are added to the system in line with your demand, will perfectly enable both “heat” and “sound” reduction at the ceiling panel point. This model can be attached to a host structure or freestanding.

Glass blades: As above, but the aluminium blades are infilled with clear or smoked glass to create a more open feel to your system

Please note:
other models available
on request.

Your pod your way

With all our pergolas, you can choose from a wide range of frame, PVC or blade colours to truly make this system your own. Thanks to its innovative design and options available, you really can create an amazing outdoor space with the feel of being indoors when required.

Alfresco living in style

A photograph of a modern outdoor patio area. A dark grey retractable pergola with integrated string lights covers the space. The patio is adjacent to a house with large glass doors and windows. The background shows a green lawn, a young tree, and other houses in a residential neighborhood. A semi-transparent tan overlay covers the bottom left portion of the image, containing text.

Make the most of your outside space

The ultimate, all year round, multi use, inside-outside, retractable and louvred shade solutions for your business or home.

Retractable zip screens

Designed for all year round use. Reduces wind and sun, whilst still being able to see through most of the fabric ranges unless you specify total block.

Special fabric mounted on a motorised modular aluminium construction carrier frame, with aluminium profiles at the top and bottom and zipper frame systems designed for sliding up the side profiles.

The perfect alfresco space

Sliding glass screens & doors

The ideal choice if you wish to create a new functional and stylish usable space for all year use.

Our Glass System is a manual controlled glass system with a horizontal axis and specially designed rail systems enable easy movement for the opening and closing movements.

Special locking solutions are available with all models.

Rising guillotine glass screens

Our Glass System is a motorised and controlled rising glass system with vertical axis. These are complementary in terms of both design and functionality, specially designed for use in our pergola products.

The system is installed on the rail profiles located in the side sections of the glass. The motorised box at the top of the system opens and closes the system by means of hidden steel chains and gears. You have the option of having the lower half in position and the upper section either open or closed!

Additional products

In addition to our beautiful pergola pods, you can also add LED lighting and heating solutions, to create a warm, cosy and extremely comfortable usable area.

The ultimate relaxation or party room with heat and light

Providing shade,
shelter, and comfort.

Steps to make the most of your outside space

1 **Survey & proof**
We will visit your home or business and measure the space and our design team will come up with the perfect design options.

2 **Design & visualise**
We will provide you with a design and if required a visual to help present the roof system to you.

3 **Quotes & contracts**
If you are happy with the proposal, pricing and timings, we will put together a project contract so that you can understand the whole process.

4 **Manufacture**
At this point the project will be passed over to our factory for production and your creation will begin to become a reality!

5 **Installation**
Once your new pergola arrives, our experienced installation team will undertake the full installation.

6 **Completion & handover**
Once the installation is complete, we will demonstrate how your new system works and answer any question you may have. Now enjoy!

Create an amazing outdoor space.

Q&A

Recommend family or friends
and receive £1000!*

*payable on confirmation of order and receipt of full payment.

Who obtains any planning permission or consent for additions if the building is leasehold?

The client will need to obtain any planning permission and/or landlords consent for additions to the building, if leasehold.

Are your locks insurance grade compliant?

Yes, all our locks are insurance grade compliant.

Are there any fire safety measures we need to be aware of?

The client must ensure locked doors in newly built pods do not compromise fire escape routes.

Are closed pods weatherproof?

If you choose glass sides, then your new pod will be weatherproof.

Will a pergola increase revenue for my business?

Yes it will. With the increasing need to utilise outside space, by offering more enhanced alfresco seating and offering an additional beautiful space, you should attract more customers!

What are your payment terms?

A down payment of £500 is required when requesting initial designs. If the designs are approved and you decide to proceed, this amount will be deducted from the total. The payment schedule is as follows: 50% of the total amount is due with the order, 40% upon arrival at our factory, and the remaining 10% on the handover day.

Is VAT included in the price?

All prices exclude VAT, which will be levied at existing rate on all orders. This gross sum is payable at deposit and completion stage.

Terms and conditions available on request.

Integrating inside and outside
for your personal enjoyment.
